PROTECT YOUR VALUABLE HVAC CARGO

PROFESSIONAL GRADE
HVAC
SOLUTIONS

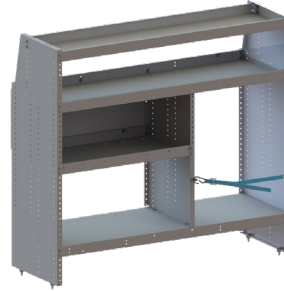

AIR FILTER STORAGE SHELF

Prevent Damaged Filters

// Contains and protects air filters up to 26" tall during transport to minimize the possibility of filter damage.

// Available in 50" width and three heights, 46"(GM), 49"(Ford), and 63.5"(High Roof Vehicles)

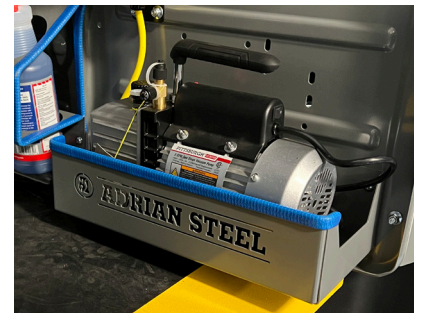

VACUUM PUMP TRAY

Protect Your Pump & Prevent Oil Spills

// Prevents pumps from falling out of vehicle step well when opening side doors. (common storage spot)

// Can be mounted on floor, end panel or partition.

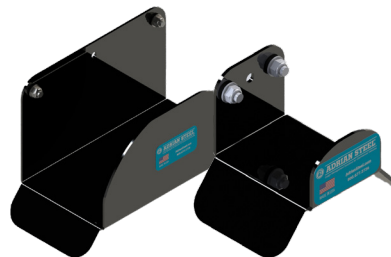

HOSE / CORD ORGANIZERS

Free Up Valuable Floor Space & protect the longevity of your equipment

// Designed to support up to 100 lbs. of oversized hoses/cords.

// Curved surface conforms to the hose which helps prevent hose deformation and extends hose service life.

RECLAIM/RECHARGE TANK STORAGE

Transport Tanks Safely

// Ergonomic access from rear or side doors.

// Mix & Match options to support the number of tanks you need to carry.

GAUGE COVER

Prevent Manifold Gauge Damage

// Fits both mechanical and digital manifold gauges.

// Can be mounted on window screens, end panels or partitions.
